Dear Bill:

On behalf of our construction team, I would like to thank you and Hercules Fence for your assistance at the Christopher Newport University Madison Hall Dormitory fire on August 5, 2006. The day after the fire W. M. Jordan Company responded to the needs of the university and quickly found that the most prudent activity to provide a safe environment to the students was to erect a temporary fence around the damaged building. Within three hours of our phone call on Saturday you mobilized men and material to begin erection of the fence! Your crews promptly and efficiently secured the area for W. M. Jordan Company and the university. This is truly dedication to the community and W. M. Jordan Company above and beyond the regular work week and we certainly appreciate this support. I do not know the names of the crew that responded so diligently, but I would appreciate it if you would pass on our thanks to them.

I look forward to continuing our relationship in the years to come.

Sincerely,

W. M. JORDAN COMPANY, INC.
